

Twofold faceplate, vertical 71 mm centre distance, for a double switch and one 45x45 function, Niko Rocker steel white coated

154-56856

The Niko Rocker twofold vertically oriented faceplate clicks onto a single switch function and one 45 x 45 mm function that have been vertically installed on top of each other with a centre distance of 71 mm. The faceplate combines with any available Niko Rocker double switch function and a Niko 45 x 45 mm function. It consists of an upper frame, light guide and lower frame that are mechanically interconnected. The upperframe is made of steel. The lower frame is made of white polycarbonate (PC) + acrylic-styrene-acrylate (ASA), white coated. The upper frame is 2 mm thick and the lower frame 6 mm.

Niko recommends a design combination with a finishing set in the following colour: steel white coated for Niko Rocker and Niko Toggle finishing sets and white coated for other finishing sets.

- Exclusive materials
- Authentic vintage design
- Belgian design & craftsmanship
- Design matches Niko Pure portfolio
- Proven Niko quality
- Unique illuminated switch design (by adding feedback LED)
- Designed to fit any available 45 x 45 mm function

Technical data

Twofold faceplate, vertical 71 mm centre distance, for a double switch and one 45x45 function, Niko Rocker steel white coated.

- Double faceplate for two switches.
