

## 200-PXC1620: Henco 5L PE-Xc 16x2 200m

ik Pisk Risk Risk

## Commercial information

The Henco 5L PE-Xc synthetic pipe is made up of five layers. It has an inner and outer layer of electron-beam cross-linked polyethylene that has been cross-linked using electron beams EVOH oxygen barrier that conforms with with DIN 4726 which allows this synthetic pipe to be used in heating applications. These three different layers are bonded to each other by two high-quality, homogenous connecting layers.

Certificates

DIN CERTCO, KOMO, ATG, SKZ

**Applications** 

Potable water, Heating, Cooling, Compressed air, Underfloor Heating, Sanitary

**Solutions** 

Building installations, Industry, Underfloor heating, Utility

## **Technical characteristics**

| Material                           | Polyethylene (PE) | Outer pipe diameter                                | 16 Millimetre                    |
|------------------------------------|-------------------|--|----------------------------------|
| Material quality                   | PE-Xc             | Wall thickness                                     | 2 Millimetre                     |
| Diffusion-proof                    | ✓                 | Standard Dimension Ratio (SDR)                     | 9                                |
| Nominal diameter                   | DN 12             | Max. operating pressure at max. medium temperature | 10 Bar                           |
| Connection 1                       | Tube end          | Outer diameter mantle pipe                         | 0 Millimetre                     |
| Connection 2                       | Tube end          | RAL-number pipe                                    | 0                                |
