Ground terminal block, 880 Series, operating tool

Connect conductors quickly and easily with this ground terminal block (item number 880-907). Strip lengths must be between 8 and 9 mm when connecting conductors to this ground terminal block. Our ground terminal blocks directly connect the mounting rail and the electrical conductors thanks to an integrated mounting foot. This connection ensures both electrical and mechanical stability between the conductors and the mounting adapter. This product features conductor terminals and utilizes CAGE CLAMP®. Our highly-rated and maintenance-free CAGE CLAMP® connection makes it easy to connect all types of conductors without having to prepare the conductor. For example, you don't need to crimp ferrules. This ground terminal block is suitable for conductor cross sections ranging from 0.08 mm² to 4 mm².

This through rail-mount terminal block is operated with an operating tool.
