

Walraven WGB-M Aerated Concrete Anchor

(L0382)

for soft substrate

Features & benefits

- internal thread connection allows flexible distance from the anchor to the fixture
- load can be applied immediately after installation
- installation does not require drilling
- four-way expansion provides high permissible loads, even in tensile areas of roofs and ceilings
- high load safety due to undercutting expansion
- fire resistance class R30-R120 for design of anchorages under exposure to fire
- with VdS-approval - certificate number G 4980083 for applications with stationary fire extinguishing systems
- material: steel
- zinc plated
