

The next generation XC200: A flexible PLC for standard automation tasks

The XC200 modular PLC range is available in different versions to provide maximum flexibility for your application.

The next generation of the XC200 range from Eaton's XControl™ portfolio is the perfect PLC for standard automation tasks. The device comes up with CAN, RS485 and Ethernet interfaces and a modular I/O level that can be flexible assembled using the compact XN300 I/O system. In combination with the XH300 web panel, this product range facilitates the design of cost-efficient standard automation systems.

Highly flexible – the XC200 modular PLC

We offer different versions of the XC200 modular PLC to enable you to meet all your requirements in a cost-effective manner. Models with up to two Ethernet, CAN and RS485 interfaces are available, supporting communication via Ethernet IP, Modbus TCP, EtherCAT, CANopen, Modbus RTU or RS485. And the integrated HTML5 web server allows for remote visualization on mobile devices such as PCs, tablets and smartphones.
