

Niko Toggle for single switch functions, steel champagne coated

166-57001

The Niko Toggle clicks onto the switch part of the single switch function. Click the Toggle set onto the function before you click the Niko Toggle faceplate into place.

The Niko Toggle consists of a click connector made out of high grade, durable plastic that permanently fixes the lever. The lever is made of aluminium.

- Exclusive materials
- Metal controls
- Authentic vintage design
- Belgian design & craftsmanship
- Proven Niko quality
- Unique illuminated switch design (by adding feedback LED)
