

Splashproof garden post with spike for two Niko Hydro functions, grey

700-36820

The garden post can hold two Niko Hydro functions of your choice. It has an IP55 protection degree and is equipped with a spike that needs to be driven directly into the earth. Its functional and beautiful design makes the garden post a perfect fit for outdoor areas, such as on terraces and in outdoor kitchens. Moreover, the entire unit is splashproof, which makes it extremely well-suited for use in damp areas and in ammonia-rich environments. Please note that the adapter frame XXX-85000 must be used to build 45 x 45 mm functions, such as data modules, telephone sockets, audio connections and TV/FM sockets, into the garden post.

Technical data

Splashproof garden post with spike for two Niko Hydro functions, grey.

Handmade product: small deviations in form may occur

- Function:
 - socket outlet
 - contact buses with a large contact surface that do not rest on the base in order to be connected
- Number of mechanisms: 2
- Material finishing: stainless steel
- Colour: grey
- Colour RAL (approximately): 7035
- Colour NCS (approximately): NCS S 1502-B
- Surface treatment: coloured in mass
- Type of inlet: one double M20 input with cable glands
- Type of inlet: one double M20 input with cable glands
- Protection degree: IP55 for the combination of a function and a splashproof mounting box
- Impact resistance: the combination of a Hydro mechanism and a flush- or surface-mounting box has an impact resistance of IK07 with a minimum temperature of -25 °C and a maximum temperature of 55 °C
- Dimensions (HxWxD): 347 mm x 83 mm x 68 mm
- Certification marks: DEKRA
- Marking: CE
