Durch die Exzenterbuchse können Bohrtoleranzen ausgeglichen werden.

Grâce à l'axe excentrique de réglage on peut rattraper la tolérance de perçage.

With the excentric socket it is possible to equalize tolerance of the drilling.

Con la rondella eccentrica è possibile equilibrare tolleranze diverse tra i fori.

Durante la instalación y mediante la excéntrica se puede corregir la posición de la barra.

Door de excentrische bus kunnen eventuele boorafwijkingen worden hersteld.

Ved hjælp af den excentriske bøsning kan evt. skævheder i borehullerne udlignes.

Com o encaixe excêntrico é possível compensar a tolerância da furação.

Dzięki mimośrodowym otworom można łatwo wyrównać tolerancje otworów.
