

Modular power supply 24 Vdc, 2,5 A, 60 W

340-00050

4 year warranty

This power supply is suitable for DIN-rail mounting. It has a power supply of 60 W. This power supply conforms to the European directive for EMC and safety.

Technical data

Modular power supply 24 Vdc, 2,5 A, 60 W.

- Average active efficiency: 89%
- Efficiency at low load (10%): 85%
- Maximum MCB rating: 6 A (limited by national installation rules)
- Maximum load: 60 W
- Primary wire connection: double primary terminal connection: 1 x 2.5 mm² per screw terminal
- Secondary wire connection: Fourfold secondary terminal connection: 1 x 2.5 mm² or 2 x 1.5 mm² per screw terminal
- Protection degree: IP20
- Protection overheating: true, self-restoring
- Overload protection: true, self-restoring
- Short circuit protection: true, self-restoring
- Protection class: Class II device: SELV (safety extra low voltage), independent device
- Usage environment: indoor
- Dimensions (HxWxD): 90 mm x 52.5 mm x 55 mm
- Weight: 453 gr
- Marking: CE
