## End-of-life instruction

Clear instructions for product disassembly and recycling individual parts for re-use. ([LINK](#) to the document)

## Enhanced durability

OVR QS series are renowned for exceptional quality, rigorously tested with multiple surge currents to deliver reliable protection even in extreme conditions, with a long proven service life, safeguarding your equipment with confidence.

## Designed for recyclability

Up to 63.5% recyclability rate, calculated according to EN

## Produced in zero waste to landfill site

All non-hazardous waste of production is recycled, and we continuously work to minimize waste in our operations.

## Sustainable packing materials

Packaging is made of 100% recycled cardboard

### Third-party verified Environmental Product Declaration

EPD compliant with ISO 14025 Type III (externally verified), ensuring data accuracy and full transparency on the product's environmental impacts throughout its life cycle. ([LINK](#) to the EPD).

### Low carbon manufacturing

This product is manufactured in an ABB facility that is powered by renewable energy.
