

UFH-C190118: Flowmeter 0-480 L/H Adjustable For CD

Basic unit dimensions

| | |
|------------|----------|
| Height | 105 mm |
| Length | 27 mm |
| Width | 27 mm |
| Net weight | 0.000 kg |

Certificates

Commercial information

Heating, Cooling, Underfloor Heating

Solutions

Underfloor heating, Building installations, Industry, Utility

Technical characteristics

| Indication | Analogue | Measuring range | 0 480 Degrees celsius |
|---|----------|-----------------|-----------------------|
| Multiple display | × | | |
| Thermal element type B | × | | |
| Thermal element type E | × | | |
| Thermal element type J | × | | |
| Thermal element type K | × | | |
| Thermal element type N | × | | |
| Thermal element type R | × | | |
| Thermal element type S | × | | |
| Thermal element type T | × | | |
| Thermal element RTD | × | | |
| Measurement of differential temperature | × | | |
| Measurement of relative air humidity | × | | |
| Measurement of material humidity | × | | |
| Measured value memory | × | | |
| Interface | × | | |
| Separate sensor | × | | |
| Infrared measurement | × | | |
