

PRODUCT DATASHEET

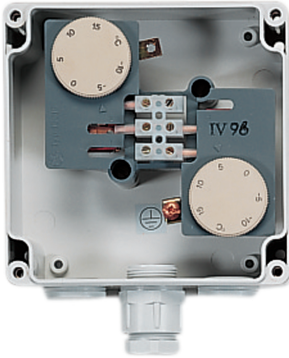

Type: ET-3102
Art. Nr.: 26616

9120054170458

Short description

Double thermostat, temperature range: -15 to °C, 16A, IP 65

Product Description

Bimetal double thermostat for simple control of gutter heating systems. Depending on ice formation, 2 temperature points can be set. Only for systems smaller than 20 m, for larger systems we recommend a humidity and temperature-dependent control. Plus range: 0 to 15 °C, minus range: -15 to 0 °C, switching current: 16 A, installation: surface-mounted, protection class: IP 65, CE-compliant.

ETIM characteristics

Temperature readable	×	Measuring range	-15 15 Degrees celsius
With display	×	Differential range/switch hysteresis	1 1 Kelvin
Adjustable differential gap	✓	Length of capillary	0 Metre
Compensated for outside temperature	✓	Max. medium temperature (continuous)	0 Degrees celsius
Contact lock	×	Max. contact voltage	230 Volt
Degree of protection (IP)	IP65	Max. contact load	16 Ampere
Explosion-proof	×	Height	120 Millimetre
		Width	122 Millimetre
		Depth	55 Millimetre
