

UFH-C190118: Flowmeter 0-480 L/H Adjustable For CD

Commercial information

Basic unit dimensions

Height	105 mm
Length	27 mm
Width	27 mm
Net weight	0.000 kg

Certificates

Applications

Underfloor Heating

Solutions

Underfloor heating, Building installations, Industry, Utility

Technical characteristics

Indication	Analogue	Measuring range	0 480 Degrees celsius
Multiple display	✗		
Thermal element type B	✗		
Thermal element type E	✗		
Thermal element type J	✗		
Thermal element type K	✗		
Thermal element type N	✗		
Thermal element type R	✗		
Thermal element type S	✗		
Thermal element type T	✗		
Thermal element RTD	✗		
Measurement of differential temperature	✗		
Measurement of relative air humidity	✗		
Measurement of material humidity	✗		
Measured value memory	✗		
Interface	✗		
Separate sensor	✗		
Infrared measurement	✗
