## Non-hardening sealing material

---

### PRODUCT SPECIFICATION

Loctite 55 pipe cord  
Class A 8bar

---

### APPLICATION AND USE

The sealing materials are suitable for use in gas installations for 2nd family gases (natural gas) and 3rd family gases (liquefied petroleum gas- LPG) according to NEN-EN 437 and for hot water heating systems

---

### MARKING

- GASTEC QA trademark, word mark or logo
  - Manufacturer/supplier name and or trademark
  - Pressure class "Klasse 0,2", "Klasse 8" or "Klasse 20" as mentioned in table 1
  - The quantity of jointing compound in the package
  - A unique identification mark providing traceability (e.g. batch number) and production date or "use by" date
  - Essential instructions for use, storage and possible limitations
  - Appropriate handling and safety labelling
  - In Dutch: "Alleen voor metalen pijpschroefverbindingen"
- 

### RECOMMENDATIONS FOR END USERS

Check at the time of delivery whether:

- the producer has delivery in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport.

Consult the producer's processing guidelines for the proper storage and transport methods.

Check whether this certificate is still valid by consulting Kiwa Nederland B.V. or the Kiwa website.

If you should reject a product on the basis of the above, please contact the supplier and, if necessary, Kiwa Nederland B.V.
