

# ABB EcoSolutions™ – M4M Network Analyzer

Sensing. To manage power.

**M4M 20-30-2X range is an accurate network analyzer for power monitoring, power quality analysis and energy management.**

As a part of the power meter portfolio, M4M 20-30-2X range guarantees complete power quality analysis and accurate energy efficiency monitoring of all the energy assets: industrial and commercial buildings, facilities, data centers.

**Eco**  
Solutions™

## End-of-life instructions

Clear instructions for product disassembly and recycling individual parts for re-use. ([LINK](#) to the document)

## Improved Efficiency

Designed to **reduce consumption up to 10%** compared to the global competitors.

## Designed for high recyclability

Up to **54.8% recyclability rate**, calculated according to EN 45555.

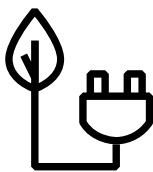

## Produced in a zero waste to landfill site

All non-hazardous waste is recycled, and we continuously work to minimize waste in our operations.

### Third-party verified Environmental Product Declaration

EPD compliant with ISO 14025 Type III (externally verified), ensuring data accuracy and full transparency on the product's environmental impacts throughout its life cycle ([LINK](#) to the EPD).

### Low-carbon manufacturing

M4M range is manufactured in an ABB facility that is powered by renewable energy and certified with UL 2799 - Zero Waste to landfill.
