

ABB EcoSolutions™ – D13 15 energy meter

Measure energy, easily

D13 15 is MID three phase direct energy meter, up to 65A in just 3 DIN module.

As part of the energy meter portfolio, D13 15 facilitates the identification of improvement areas, allowing buildings to operate more efficiently, thus reducing energy consumption and saving costs.

End-of-life instructions

Clear instructions for product disassembly and recycling individual parts for re-use. ([LINK](#) to the document)

Improved Efficiency

Designed to **reduce consumption by 40.7%** compared to the old range of meters.

Designed for high recyclability at the end of life

Up to **48% recyclability rate**, calculated according to EN 45555 and designed for reduced resource consumption thank to **-22.2%** lower weight.

Sustainable materials used in the product

Up to **+26% recycled material used** thanks to recycled plastic and copper

Sustainable packaging material

packaging is made of FSC-certified cardboard with no disposable plastics. It uses less ink, and it is easily foldable for efficient recycling.

Third-party verified Environmental Product Declaration

EPD compliant with ISO 14025 Type III (externally verified), ensuring data accuracy and full transparency on the product's environmental impacts throughout its life cycle ([LINK](#) to the EPD).
