

ABB EcoSolutions™ – D11 15 energy meter

Measure energy, easily

D11 15 is MID single phase direct energy meter, up to 40A in just 1 DIN module.

As part of the energy meter portfolio, D11 15 facilitates the identification of improvement areas, allowing buildings to operate more efficiently, thus reducing energy consumption and saving costs.

End-of-life instructions

Clear instructions for product disassembly and recycling individual parts for re-use. ([LINK](#) to the document)

Improved Efficiency

Designed to **reduce consumption by 31.3%** compared to the old range of meters.

Designed for reduced resource consumption

designed for reduced resource consumption thank to **-49.4%** lower weight.

Sustainable materials used in the product

Up to **+26%** recycled material used thanks to recycled plastic and copper

Sustainable packaging material

packaging is made of FSC-certified cardboard with no disposable plastics. It uses less ink, and it is easily foldable for efficient recycling.

Third-party verified Environmental Product Declaration
EPD compliant with ISO 14025 Type III (externally verified), ensuring data accuracy and full transparency on the product's environmental impacts throughout its life cycle ([LINK](#) to the EPD).
