Feedthrough terminal block, 226 Series, operating tool

Effortless electrical installations are guaranteed with feedthrough terminal block (item number 226-103). Conductors can only be connected to feedthrough terminal block if their strip length is between 9 and 10 mm. Featuring two conductor terminals along with CAGE CLAMP® as well as Contact pin, this product delivers reliable performance. Our CAGE CLAMP® connection provides a reliable and maintenance-free way to connect all types of conductors. You do not need to prepare the conductor in any way, such as crimping ferrules. The dimensions are (6 x 38.5 x 26) mm (width x height x depth). Feedthrough terminal block is suitable for conductor cross sections ranging from 0.08 mm<sup>2</sup> to 4 mm<sup>2</sup>.

Tin is used for coating the contact surfaces.
