

CU-10ZONERF-HC: Base module 10 zones heating/cooling, wireless

Commercial information

Certificates

Applications

Cooling, Heating, Underfloor Heating

Solutions

Underfloor heating, Building installations, Industry, Utility

Technical characteristics

| | | | |
|---|-----------------------------|--------------------------------|-----------------|
| Networkable via radiographic (standard) | ✓ | Output voltage | 230 Volt |
| Networkable via radio (optional) | ✓ | Max. power per channel | 1150 Voltampere |
| Connection for external antenna | ✓ | Reception frequency | 868 Megahertz |
| Smart control | ✓ | Level of protection (IP value) | 20 |
| Suitable for heating | ✓ | Max. contact voltage | 230 Volt |
| Contact type | Change-over | Max. contact load | 5 Ampere |
| Suitable for cooling | ✓ | Width | 90 Millimetre |
| With time switch clock | ✓ | Height | 52 Millimetre |
| With extra contact | ✓ | Depth | 365 Millimetre |
| Contact type | Change-over contact (NO/NC) | | |
