

CU-6ZONE-CON: Extension module 6 zones, wired

Commercial information

Certificates

Applications

Heating, Cooling, Underfloor Heating

Solutions

Underfloor heating, Building installations, Industry, Utility

Technical characteristics

Networkable via radiographic (standard)	✘	Output voltage	230 Volt
Networkable via radio (optional)	✘	Max. power per channel	1150 Voltampere
Connection for external antenna	✘	Reception frequency	0 Megahertz
Smart control	✘	Level of protection (IP value)	20
Suitable for heating	✓	Max. contact voltage	230 Volt
Contact type	Break (normally closed)	Max. contact load	5 Ampere
Suitable for cooling	✓	Width	90 Millimetre
With time switch clock	✘	Height	55 Millimetre
With extra contact	✓	Depth	265 Millimetre
Contact type	Breaker contact (NC)
