

# Product data sheet Spirotech

## Product name

**SpiroVent -2" -Hor**

## Product properties

A brass (microbubble) deaerator with a 22 mm - 2" horizontal connection

- Removes all circulating air and microbubbles effectively
- Applicable with 50/50 Glycol / Water (Volume)
- Removes trapped air when installed at the correct location
- Greatly reduces the need for manual venting
- Constant low-pressure drop
- No unnecessary shutdown
- Connection diameters from 22 mm to 2" (G2)
- Exceptional guarantee

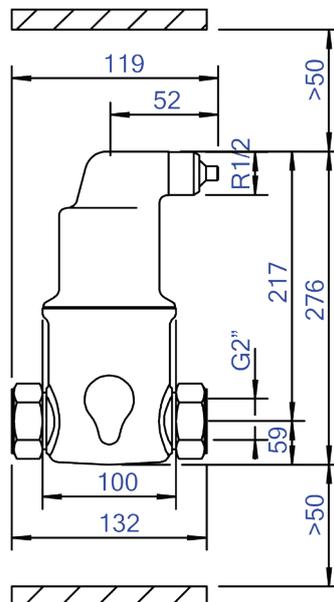

## Article number

|---|--|
| Housing material                          | Brass  |
| With drain valve                          | No   |
| Housing material quality                  | Other  |
| Backwash filter                           | No   |
| Medium temperature (continuous)           | 0 - 110 °C   |
| Max. operating pressure                   | 10 bar   |
| KVS value [m <sup>3</sup> /h] at ΔP 1 bar | 63.39  |
| Variable flow direction                   | Yes  |
| With insulation                           | No   |
| Separator type                            | Air  |
| Connection                                | Internal thread cylindrical BSPT-Rp (ISO 7-1 / EN 10226-1) |
| Model                                     | Horizontal   |
| Nominal diameter                          | 2 inch (50)  |
| Max. glycol mixture                       | 50 %   |
| Suitable for heating                      | Yes  |
| Suitable for cooling                      | Yes  |
| Construction length                       | 132 mm   |

|                                       |                           |
|---------------------------------------|---------------------------|
| Article compression class             | PN 10                     |
| Surface protection                    | Untreated                 |
| Suitable for open system              | No                        |
| Suitable for closed system            | Yes                       |
| Suitable for solar                    | No                        |
| With dismountable filter              | No                        |
| Filter volume                         | 1.1 l                     |
| Magnet operating principle            | No                        |
| With automatic de-aerator             | Yes                       |
| With integrated replenishment automat | No                        |
| With couplers                         | Yes                       |
| Material of connection                | Brass                     |
| Inlet/outlet offset distance          | 0 mm                      |
| Material quality connection           | Other                     |
| Flow-through capacity                 | 0 - 7.5 m <sup>3</sup> /h |
| Operating principle                   | Other                     |
