

CU-REGB-HC24V: analog thermostat 24v hc

Commercial information

Certificates

Applications

Heating, Cooling, Underfloor Heating

Solutions

Underfloor heating, Building installations, Industry, Utility

Technical characteristics

Regulation type on/off	✘	Measuring range minimum value	0 Degrees celsius
Regulation type modulating	✓	Measuring range maximum value	40 Degrees celsius
External sensor	✘	Measuring range	0 40 Degrees celsius
With thermal feedback	✘	Differential value	-2 2 Kelvin
Control characteristic	Other	Number of switching programmes	0
Suitable for heating	✓	Level of protection (IP value)	20
Suitable for cooling	✓	Max. contact load	1 Ampere
Adjustable differential	✘	Width	86 Millimetre
Selector switch for heating and heating with hot water	✘	Depth	86 Millimetre
Temperature readable	✘	Height	33 Millimetre
Relative humidity (RH) readable	✘		
With display	✘		
Type of clock	Other		
Overtime switch	✘		
Optimisation	✘		
With tap water circuit	✘		
Weather-dependent control system	✘		
Degree of protection (NEMA)	3		
Explosion-proof	✘
