

HENCO ECOLINE SYNTHETIC PRESS

WHAT?

In the Henco Ecoline concept, the return part of a circulation pipe is located in the supply part. This extraordinary solution offers many advantages.

ADVANTAGES

- ✓ Energy saving
- ✓ Cost effective
- ✓ Easy installation
- ✓ Less space consumption
- ✓ Anti legionellosis

WE CARE TO CONNECT

THE SAVING CIRCULATION PIPE

The Henco Ecoline is an energy saving solution for recirculation loops, which limits heat loss between supply and return pipe.

A separate pipe for the circulation water is no longer required.

Designed on the Henco Super Size concept, it also combines modularity and easy installation.

One concept for all dimensions from 40 up to 75 mm!

NECESSARY ITEMS TO COMPLETE THE ECOLINE INSTALLATION

Henco 1L PEXc

8HNA
Ø 40-50-63-75

19PK
Ø 16-20

19SK
Ø 16-20

19P
Ø 16-20

33P
Ø 16

* To complete the Ecoline installation you need to have a circulator and thermostatic balancing valve (not in Henco range)
