

Product data sheet Spirotech

Product name

SpiroTrap -DN50 -Magnet -Weld

Product properties

A steel dirt separator with magnet for standard flow rate (1.5 m/s) with a DN50 - DN150 weld connection

- Very small particles, from 5 μm (= 0.005 mm) are separated and removed
- Integrated magnet for extra protection and removal of magnetite
- Dirt can be drained while the system is in operation
- No shut-off valves or bypass required
- Applicable with 50/50 Ethylene Glycol / Water (Volume)
- Constant low pressure drop
- Maintenance only takes a few seconds
- No unnecessary downtime
- Weld connection
- Connection diameters from DN50 to DN 150, larger connection diameters on request

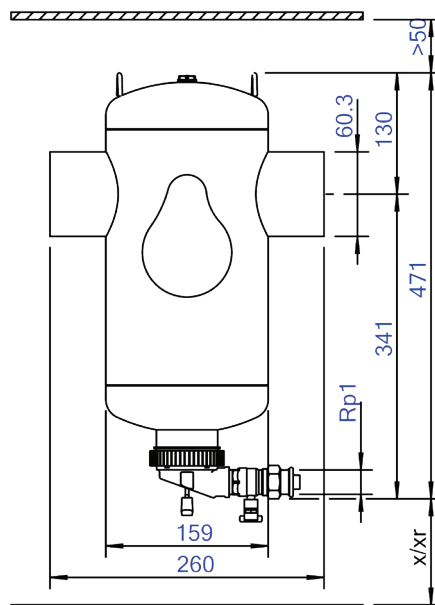

Article number

BE050LM

Product data sheet Spirotech

ETIM product data

Housing material	Steel	Suitable for closed system	Yes
With drain valve	Yes	Suitable for solar	No
Housing material quality	St 37 (1.0254)	Whirl operating principle	No
Backwash filter	No	Negative pressure operating principle	No
Max. operating pressure	10 bar	With dismountable filter	No
KVS value [m3/h] at ΔP 1 bar	73.1	Filter volume	5 l
Variable flow direction	Yes	Magnet operating principle	Yes
With insulation	No	Thrust operating principle	No
Separator type	Dirt	With automatic de-aerator	No
Connection	Welded end	Partial flow principle	No
Model	Horizontal	Principle full flow with settling	Yes
Nominal diameter	DN 50	With integrated replenishment automat	No
Max. glycol mixture	50 %	With couplers	Yes
Suitable for heating	Yes	Cleaning possible during operation	Yes
Suitable for cooling	Yes	Material of connection	Steel
Construction length	260 mm	Inlet/outlet offset distance	0 mm
Article compression class	PN 16	Operating principle	Magnet
Surface protection	Lacquered	Magnet location	Internal
Suitable for open system	No	Flange standard	Other
