

ABB EcoSolutions™ – B-Mini contactors and contactor relays

Reliable Performance and Space Efficiency with B-Mini Contactors

The B-Mini contactor range sets a new standard in compact control solutions. With its innovative design and low power consumption, it ensures reliable performance while occupying minimal space. The B-Mini contactors provide optimal configurations for various applications, making them a versatile choice for both residential and industrial use.

ABB
Eco
Solutions™

End-of-life instructions

Closing the loop with instructions to maximize the recyclability embedded in circular design.

Efficient Solutions for different applications

Energy efficient product due to lower average energy consumption during use phase compared to equivalent products available in the market.

Designed for recyclability at end of life

Recyclability rate of 87% according to EN 45555.

Produced in a zero waste to landfill site

All non-hazardous waste is recycled, and we continuously work to minimize waste in our operations. Validated by UL2799.

Third-party verified Environmental Product Declaration

EPDs compliant with ISO 14025 Type III (externally verified) ensure data accuracy and full transparency on the product's environmental impacts throughout its life cycle.

Low carbon manufacturing

This product is manufactured in ABB facilities powered by renewable energy.
