Declaration on TA521, TA541, 07LE90

The Regulation (EU) 2023/1542 of the European Parliament and of the Council of 12 July 2023 on batteries and waste batteries will be implemented gradually and will lead to the repeal of the previously valid Directive 2006/66/EC on August 18, 2025.

The primary cells used in our TA521, TA541 and 07LE90 accessories comply with the limit values for mercury, cadmium and lead specified in Article 6 of Regulation (EU) 2023/1542.

We are following the further implementation steps of the regulation and are taking appropriate measures. We will inform you about this in due course.

Yours sincerely,

ppa. Oliver Mereien
