Product Description

The ETHERMA EXO TRIPOD is a location-independent standing infrared heater for outdoor use. It consists of a stand with a round concrete base and two radiant heaters. Both heaters can be operated via an electronic multifunction switch on one of the devices. Alternatively, it can also be controlled via a remote control (optional). The heaters are equipped with an infrared halogen tube, each 1400W. The connecting line is routed through the interior of the tripod tube. The high-quality aluminium heater housings not only lend the technology a contemporary design, they are also durable. ETHERMA INSTRUCTION: When used in covered outdoor areas, a safe distance of at least 30 cm from the ceiling must be observed. Housing and base colour: black, colour of end caps heater: nano anthracite; height: 2100 mm, width: 462 mm, depth: 310 mm, protection rating: IP 65, voltage: 230 V, plug cable 180 cm, system structure: CE marking.

ETIM characteristics

Model	Freestanding radiator	Voltage	230 230 Volt
Mounting method	Freestanding	Number of heating levels	1
Power step OFF	✓	Min. heating power	2800 Watt
Mounting over cradle	✗	Max. heating power	2800 Watt
Degree of protection (IP)	IP65	Min. mounting height	2.1 Metre
Colour	Black	Max. mounting height	2.1 Metre
Compatible with Apple HomeKit	✗	Height	2.1 Millimetre
Compatible with Google Assistant	✗	Width	462 Millimetre
Compatible with Amazon Alexa	✗	Depth	310 Millimetre
IFTTT support available	✗	RAL-number	9011
