

Battery Backup

BAT-01

Battery Backup clips onto any Plejd puck (46x46x18 mm) and is used to maintain the time functions, such as astro schedule, in the system in the event of a power outage. Only one Battery Backup per Plejd system is needed, provided that the products are within wireless range of each other. BAT-01 can be installed on a wall or on a DIN rail.

Technical data

Dimensions	50x38x24 mm Width on DIN rail: 3u
Calculated battery life	10 years reserve
