4 year warranty

This flat and discrete presence detector is single-channel master detector for automatic lighting control. The Snapfit mounting system guarantees fast and stable installation. Moreover, the detector is prewired with cables and 3-pole male and female connectors that are each unique, which helps to avoid installation errors and save time.

This P42 detector with two cables is suitable for ON/OFF lighting control in hallways, printer rooms, toilets and storage rooms. It is used in installations with standard daylight control applications, mainly with automatic ON/OFF function:

- Preprogrammed for automatic ON/OFF
- Preprogrammed settings can be changed via the Niko detector tool app and 2-way Bluetooth® communication (e.g. lux and switch-off time delay)

Lighting control can be overridden with a Bluetooth® push button.

Finishing colour: white
