

Description

Arc pole fits all versions of Protect 2.0 and Neptune 2.0. The painted versions of the pole are made of chromated steel, giving good protection against corrosion. Standard colours white RAL 9016, black RAL 9011 and unpainted. The unpainted version is made of galvanized steel which fits very good together with fittings in natural aluminium.

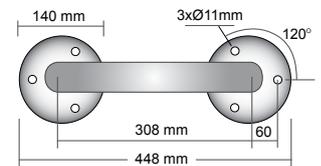

Application areas

Footpaths, entrances, parks, parking area etc...

Mounting

Arc pole is prepared for single or dual mounting. (1 or 2 fittings). The pole is easy to mount and are delivered with a plate in behind covering all cabelings.
