ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

PRODUCT DATASHEET

Type: eTRACE-10-PRO
Art. Nr.: 41243

9120105413992

Short description
Self-regulating heating tape for pipes, 10W/m, up to 65°C

Product Description
The eTRACE-10-PRO self-regulating heating tape is suitable for use in industrial and domestic applications. Applications range from frost protection to temperature maintenance on pipes and containers. The supply conductors are made of nickel-plated copper. The heating tape is also moisture-proof and UV-resistant. It can be easily cut to the required length and used immediately. Nominal output 10 W/m at 10 °C, max. ambient temperature: 65 °C switched off and 65 °C switched on, min. installation temperature: -45 °C, min. bending radius: 25 mm, test mark: NEMKO, CE compliant.

ETIM 10 Characteristics

Cable type	Dual core	**Nominal voltage**	230 Volt
Constant power	✖	**Max. hold temperature**	65 Degrees celsius
Self-limiting	✔	**Heating capacity**	10 Watt per metre
Screening	Foil	**Diameter**	0 Millimetre
Material screening	CuNi	**Height**	5.5 Millimetre
Surface coating screening	None	**Width**	8.3 Millimetre
Colour	Black	**Length**	1 Metre
Application	Pipe heating
