

UFH-C190118: Flowmeter 0-480 L/H Adjustable For CD

Certificates

Applications

Heating, Cooling, Underfloor Heating

Solutions

Underfloor heating, Building installations, Industry, Utility

Commercial information

Technical characteristics

Indication	Analogue	Measuring range	0 480 Degrees celsius
Multiple display	✗		
Thermal element type B	✗		
Thermal element type E	✗		
Thermal element type J	✗		
Thermal element type K	✗		
Thermal element type N	✗		
Thermal element type R	✗		
Thermal element type S	✗		
Thermal element type T	✗		
Thermal element RTD	✗		
Measurement of differential temperature	✗		
Measurement of relative air humidity	✗		
Measurement of material humidity	✗		
Measured value memory	✗		
Interface	✗		
Separate sensor	✗		
Infrared measurement	✗
