

## UFH-PRO: System plate without insulation - 1,12M<sup>2</sup>

### Commercial information

An underfloor heating system in which the pipe is mounted in a pre-formed system plate. This system can be quickly installed and does not require any special tools. It is important that the system plate is laid on a level surface. A maximum of one insulation layer is allowed under the system plate.

#### Basic unit dimensions

|            |          |
|------------|----------|
| Height     | 20 mm    |
| Length     | 1,510 mm |
| Width      | 880 mm   |
| Net weight | 1.200 kg |

#### Certificates

#### Applications

Heating, Cooling, Underfloor Heating

#### Solutions

Underfloor heating, Building installations, Industry, Utility

## Technical characteristics

|                              |                   |                            |                  |
|------------------------------|-------------------|----------------------------|------------------|
| Material                     | Polyethylene (PE) | Width                      | 1400 Millimetre  |
| Studded panel                | ✓                 | Length                     | 800 Millimetre   |
| Tacker plate                 | ✗                 | Insulation thickness       | 0 Millimetre     |
| Inlay plate                  | ✗                 | Suitable for pipe diameter | 16 16 Millimetre |
| Hook-and-loop fastening      | ✗                 |                            |                  |
| With foil                    | ✗                 |                            |                  |
| With heat-conducting plate   | ✗                 |                            |                  |
| With impact sound insulation | ✗                 |                            |                  |
| Rollable                     | ✗                 |                            |                  |
| Foldable                     | ✗                 |                            |                  |
