

## UFH-TACK-KLS40: Henco Tacker sheet,eps insul 40mm,foil with 100x100mm grid marking an

### Commercial information

An underfloor heating system in which the pipe is held in place by means of tacker staples. This is a system commonly used to install underfloor heating on large surfaces. The corresponding tacker stapling device must be used to apply tacker staples.

#### Basic unit dimensions

|            |          |
|------------|----------|
| Height     | 40 mm    |
| Length     | 1,000 mm |
| Width      | 1,000 mm |
| Net weight | 0.550 kg |

#### Certificates

#### Applications

Heating, Cooling, Underfloor Heating

#### Solutions

Underfloor heating, Building installations, Industry, Utility
