Component terminal block with led, 279 Series, operating tool

Component terminal block with led (item number 279-624/281-413) provides fault-free electrical installations. Conductors should only be connected to component terminal block with led if their strip length is between 8 mm and 9 mm. This product features conductor terminals and utilizes CAGE CLAMP®. Our CAGE CLAMP® connection provides a reliable and maintenance-free way to connect all types of conductors. You do not need to prepare the conductor in any way, such as crimping ferrules. Depending on the conductor type, component terminal block with led is ideal for conductor cross sections ranging from 0.08 mm² to 1.5 mm². He features one level and four clamping points for connecting a single potential. The gray housing is made of polyamide (PA66) for insulation. These function terminal blocks are mounted using DIN-35 rails..
