Ablaufgarnitur G1 1/4 aus Metall

A modern, minimalist faucet with a curved spout and two side handles, finished in a matte, dark brown or black color. The faucet is shown against a plain white background.

Technical drawing of the experimental apparatus for measuring the thermal conductivity of a liquid. The drawing includes a top view of the main chamber and a side view of the curved tube assembly. Dimensions are given in millimeters. Key components include a central vertical tube, two side ports with G57 connections, a central valve assembly, and a curved tube with a 24° angle. A detailed view of the valve assembly shows a G1 1/2 connection and a 50 mm height.

The graph shows the relationship between flow rate Q_v (l/min) and pressure p (bar). The curve starts at the origin (0,0) and increases, reaching a plateau of approximately 5.6 l/min at 3 bar and above.

Pressure p (bar)	Flow rate Q_v (l/min)
0	0
1	3.5
2	5.2
3	5.6
4	5.6
5	5.6
