

Product Carbon Footprint Report

AMAD Mennekes Holding GmbH & Co. KG

📦 Plug PTX R 63A5p6h IP67

Issue date	03/02/2026
Reporting period	2025
Production facility	MENNEKES Elektrotechnik GmbH & Co. KG
System boundary	Cradle-to-gate
Standard	ISO 14067

Table of contents

01 Product information

63A5P 6H400V plug PowerTOP Xtra IP 67 with high heat resistant contact carrier and nickel plated contact, rubberized handle area, cable gland with integrated strain relief and sealing housing with threat closing and push locking

Product name	Plug PTX R 63A5p6h IP67
Product ID	13212

CO₂ Footprint (PCF) 5.36 kgCO₂e	
Gross weight¹ 0.90 kg	Net weight² 0.88 kg
Biogenic emissions per kg of product -0.00 kgCO ₂	Biogenic carbon content per kg of product 0.00 kgC

1: Gross weight refers to the sum of all raw materials required to make the product, including auxiliary materials.

2: Net weight refers to the weight of the final product.

Balance scope: Greenhouse gas emissions were recorded "Cradle-to-Gate". The balance sheet includes significant emissions from materials, production processes, and transport from suppliers. It does not include packaging, operating supplies, auxiliary materials, and transport to customers. In the absence of high-quality data to calculate emissions of the product, cut-off criteria were applied to exclude inputs contributing less than 1% to the total mass and energy flows, ensuring the exclusion of negligible impacts. Furthermore, it was ensured that the sum of all excluded inputs wasn't more than 5% of the total mass or energy flows. Data quality was assessed based on ISO 14067 guidelines, prioritizing primary data for key processes and using verified secondary data for less critical inputs to ensure robustness and reliability of the PCF calculation.
