

HSM-DETECTOR: Smart monitoring detector

Commercial information

Protect your home with precision. The Henco Smart Monitoring Detector detects leaks instantly, monitors temperature and humidity, and helps prevent damage before it starts. Easy to set up and seamlessly pairs with the Henco Smart Monitoring Valve for automatic water shut-off. Small, powerful, and designed to keep your space safe and sound.

Its compact design allows Henco Smart Monitoring Detector to be placed in even the tiniest of spaces, without any problem.

Diameter: 67 mm
Height: 25 mm

If you have a Henco Smart Monitoring Valve and a Henco Smart Monitoring Detector, you can pair them so that the Henco Smart Monitoring Detector triggers to shut off the water supply when a leak is detected.

The ultimate pair, for your home's safety.

The Henco Smart Monitoring Detector sends a wireless alarm and makes sound when it gets in physical contact with water. If it has been connected to WiFi, its alarms are immediately sent to admins and residents.

Batteries are included.

Basic unit dimensions

Height	25 mm
Length	67 mm
