

Product Carbon Footprint Report

AMAD Mennekes Holding GmbH & Co. KG

📦 Panel mounted receptacle with TwinCONTACT 3385

Issue date	01/15/2026
Reporting period	2025
Production facility	MENNEKES Elektrotechnik GmbH & Co. KG
System boundary	Cradle-to-gate

01 Product information

16A5P 6H400V panel mounted receptacle with TwinCONTACT IP 44; screwless installation technique; flange dimension 75 × 75 mm; fixing dimension 60 × 60 mm.

Product name Panel mounted receptacle with TwinCONTACT 3385

Product ID 3385

CO₂ Footprint (PCF)
1.05 kgCO₂e

Gross weight¹
0.21 kg

Net weight²
0.16 kg

1: Gross weight refers to the sum of all raw materials required to make the product, including auxiliary materials.

2: Net weight refers to the weight of the final product.

Balance scope: Greenhouse gas emissions were recorded "Cradle-to-Gate". The balance sheet includes significant emissions from materials, production processes, and transport from suppliers. It does not include packaging, operating supplies, auxiliary materials, and transport to customers. In the absence of high-quality data to calculate emissions of the product, cut-off criteria were applied to exclude inputs contributing less than 1% to the total mass and energy flows, ensuring the exclusion of negligible impacts. Furthermore, it was ensured that the sum of all excluded inputs wasn't more than 5% of the total mass or energy flows. Data quality was assessed based on ISO 14067 guidelines, prioritizing primary data for key processes and using verified secondary data for less critical inputs to ensure robustness and reliability of the PCF calculation.
