

Connected motor control, base, 3 A, 71 x 71 mm, screw fixing, Easywave # technology

551-72311

The connected motor control contains a switching contact to control a 230 V motor. It contains a transmitter and receiver that communicate wirelessly with the wireless smart hub for Niko Home Control.

You can use the connected motor control to replace a conventional motor control. The connected motor control can switch its own contacts.

With the addition of the wireless smart hub for Niko Home Control, it is possible to configure additional functionalities with the Niko Home Control programming software. For example, it becomes possible to add it to a scene or all-off function. This device is not compatible with the wireless bridge (550-00640).

This article is protected by at least one patent (or patent application). For more info on patents, see www.niko.eu/innovation.

Technical data

Connected motor control, base, 3 A, 71 x 71 mm, screw fixing, Easywave # technology.

- Not compatible with the wireless bridge, compatible with the wireless smart hub
- Type of control: push button
- Number of buttons: 2
- Number of leds: 2
- Maximum MCB rating: 16 A (limited by national installation rules)
- Wireless communication protocol: Easywave
- Protection degree: IP20
- Minimum flush-mounting depth: 31 mm
- Type of fastening:
 - with screws for simple fixing in a flush-mounting box with grip surfaces
- Centre-to-centre distance:
 - horizontal coupling and vertical coupling with centre-to-centre distance 71 mm
 - horizontal connection of several bases is quick and perfect thanks to the folded-up dovetails on the left and right side

– extra robustness due to the folded-up edges on the outside of the base
and the continuation to the inside of the base

- Terminals wire capacity: 2 x 2.5 mm²
- Suitable type of wire: rigid (solid or stranded)
- Markings on the flush-mounting frame: indelibly indicated at the rear side:
terminals
- Maximum ambient temperature: 40 °C
- Dimensions (HxWxD): 73 mm x 73 mm x 40 mm
- Marking: CE
